Projects

Ecommerce App

demo · github

- A fully functional ecommerce website that enables users to discover products they need through an advanced filtering system, add them to their cart, and make purchases;
- Features an admin dashboard which is accessible by **/studio** url;
- Leverages Next.js's Incremental Static Regeneration feature to provide users with pre-built pages that load quickly.

Messenger App

demo · github

- A group messaging app that uses Next.js and Pusher.js to enable realtime communication via text or file messages and audio-video conferences;
- Users can have different roles such as viewer, editor or admin;
- Features typing and online status indication.

Languages

- Ukrainian (native)
- English (B2 certified level)
